

BULK FEED CONVEYING SYSTEMS: QTFE SERIES

The Quantum QTFE Series Bulk Feed conveying systems feature cantilevered stainless steel construction and utilize USDA compliant, reinforced, urethane belting. Super sanitary design with no tools needed for disassembly minimizes cleaning time. Quantum has a full line of standard conveyors that are easily adaptable to existing systems. Custom lengths and widths are also available to fit any conveying need. This conveyor can be fitted over a RC4000 or RC5000 Reclaim System to be used in conjunction with an applicator to automatically feed product into the machine when required.

SPECIFICATIONS

BELTS:

- USDA compliant
- V-guide for easy tracking
- No tool belt removal
- Flat, cleated, or textured available

DRIVE SYSTEM:

- Power drive roller driven

ELECTRICAL:

- 220 volts, 3 phase, 10 amp circuit. 50-60 Hz
